Benefit Considerations

Most UnitedHealthcare plans have a specific exclusion for breast reduction surgery except as required by the [Women's Health and Cancer Rights Act of 1998](#). Refer to the member's specific plan document for applicable coverage.

All plans cover breast reduction surgeries that qualify under the Women's Health and Cancer Rights Act of 1998. If a surgery does not qualify under the Women's Health and Cancer Rights Act of 1998, some plans may allow breast reduction surgery if we determine the surgery will treat a physiologic functional impairment. However, some plans exclude breast reduction surgery even if it treats a physiologic functional impairment. Refer to the member specific benefit plan document to determine coverage.

For breast surgery for treatment of gender dysphoria refer to the Medical policies titled [Gender Dysphoria Treatment \(for Commercial Only\)](#) and [Gender Dysphoria Treatment \(for Individual Exchange Only\)](#).
